Createspace, United States, 2010. Paperback. Book Condition: New. 226 x 147 mm. Language: English . Brand New Book ***** Print on Demand *****.It s more than just another book. It s a revelation, it is the final answer to one of the most intriguing and mysterious number that has exert complete control over the most sensitive aspects of theoretical physics and mathematics as well. Among its many aliases we have known it as the Fine Structure Constant, the Coupling Constant, the number that hides the secrets behind the Speed of Light, the atomic orbitals and electromagnetic interactions. This is what Dr. Richard P. Feynman had to say about it: . Nobody knows. It s one of the greatest damn mysteries of physics: a magic number that comes to us with no understanding by man. You might say the hand of God wrote that number, and we don t know how He pushed his pencil. We know what kind of dance to do experimentally to measure this number very accurately, but we don t know what kind of dance to do on the computer to make this number come out, without putting in secretly. This book reveals for the first time and more than hundred years after its discovery the TRUTH behind the digit 137. You won t find any sort of numerology or metaphysics associated to the arguments published here. The Author of Lex Parsimoniae has been searching for years for new mathematical ways to prove his physical theories about Reality and he finally found them. Miguel De Zayas has the honor to introduce you to a notion of Reality that even a simple school boy or girl would understand. Through the looking glass a Lewis Carroll s child tale will help Miguel De Zayas to deliver an entirely new...
